Tower Tree Construction

Our Tower Trees are constructed with a high-strength steel frame and lush PVC foliage. All branches are the same size to eliminate mistakes at installation. All branches are individual to create a realistic appearance.

Mini Tower Trees are designed with the same commercial-grade standards, with a smaller size steel frame and a slender look. Mini tower trees are perfect for smaller budget projects that still need a wow factor.

Tower Tree Features at a Glance:

- Add height in 2-foot sections for trees ranging from 12 - 60 feet high
- Evenly shaped from the base through the top
- Engineered cable points and heavy duty wiring harness secure the tree
- Commercial-grade construction for indoor or outdoor use in homes and businesses
- Strong framework designed to withstand weather and weight
- Identical branches used throughout for easy assembly
- UV protected foliage
- 5-year frame warranty

HANGING DECOR

HANGING DECOR

Spritzers

Our twinkling LED Spritzers are our most popular hanging décor item. Most commonly used as an alternative to tree wrapping, Spritzers can be hung from branches and archways or staked along pathways or flower beds and more! Plus, their flexible construction allows them to collapse neatly for storage.
